B.Tech in Computer Science

Bengal college of engineering and technology
- Durgapur

08/2018 - 06/2022

Graduated with 9.28GPA

12th Boards

Palasdanga high school

06/2016 - 05/2018

91.2%

WORK EXPERIENCE

Software Engineer

Instahyre

05/2022 - Present

Delhi

Achievements/Tasks

- Instrumental in implementing key features for Instahyre's Application Tracking System (ATS), including Questionnaire, Hiring Stages, Automated Actions, Scheduler, Evaluation, and Profile Sharing. Played a vital role in optimizing the ATS for a streamlined and efficient recruitment process.
- Utilizing Django, Tastypie, AngularJS, Bootstrap, and MySQL technologies to craft a comprehensive end-to-end solution.
- Swiftly addressing platform bugs to resolve customer issues and ensure a seamless user experience.

Web Developer Intern

Tutorify

02/2021 - 05/2022

Achievements/Tasks

- Collaborated directly with the CEO to develop a Customer Success Management (CSM) platform, facilitating streamlined onboarding processes for both students and tutors.
- Utilized Django, Bootstrap, SQLite, JavaScript, and Python to construct a comprehensive end-to-end system.
- Constructed the entire website (tutorify.in) from development to deployment and testing. Currently, the platform boasts over 12,000 registered tutors who actively utilize it on a daily basis.

Web Developer Intern

Youth India Foundation

10/2020 - 02/2021

Achievements/Tasks

- Developed a news cum blog app with an admin dashboard and a user management web app, optimizing content publication and task assignment.

PERSONAL PROJECTS

7Resume (02/2022 - 10/2022)

- github.com/sandippakhanna/7resume
- Crafted a cutting-edge web application that empowers users to construct personalized resume websites effortlessly. This dynamic platform serves as a showcase for professional experiences, resumes, portfolios, blogs, and contact details.
- Built on Django, Next.js, Django Rest Framework, TypeScript, Python, and Chakra UI, this web app allows users to easily create and manage personalized resume websites.
- The intuitive dashboard ensures precise control over professional details, while the platform supports secure appointment scheduling and lead interaction.

Real time Rock paper scissors game (11/2020 - 02/2022)

- github.com/sandippakhanna/real_time_rock_paper_scissors_game
- Introducing real-time rock-paper-scissors gaming for multiple users. Our web app, crafted with Django, Django Channels, Bootstrap, JavaScript, Python, and Redis, offers a seamless and dynamic online gaming experience.
- Engage in timeless competitions, leveraging the power of Django and cutting-edge technologies. Redis ensures smooth real-time interactions, while Bootstrap enhances the platform's responsive design for optimal user enjoyment.

CERTIFICATES

Joy of programming with Python (07/2020 - 01/2021)

Achieved a commendable 90% in NPTEL's Python exam, showcasing mastery in real-life applications and practical programming proficiency.
